AMERICAN AUTUMN (Terre Roche & Sidiki Conde)

MOGO YE SI LA DA LA

KOLU TALU CANAME TORO YA BARA SIA YA BARA DE

We want jobs a place to live Raise our children and to give

Them the confidence they need Make them strong and get them freed

From the cloud that has descended while we looked the other way

And our leaders all pretended they would bring a better day

None of us could have imagined one per cent of ourselves

Putting on a royal pageant while the rest worked on like elves
Even still the people joyful, funeral and wedding day
Till it got so friggin' awful that there was no other way
To be strong and go to work Place to settle down and breathe
All our leaders went berserk And my friend that's why we need
American Autumn

SIDIKI'S TRANSLATION OF AMERICAN AUTUMN

The people on the streets
Listen to their voice
Too much suffering
No more jobs
